

WHAT IS HIBOU WELLNESS

HibouWellness is a daily, automated, Wellness-check. HibouWellness will phone you daily to make sure you're okay, and notify family, neighbors or friends if you're not. You can set what times and days you would like your Wellness Check, or pause the calls if you don't want to be contacted for a period of time.

A slip in the bathroom, a fall outside, or a heart attack can all be life threatening if help doesn't arrive quickly. Traditional personal emergency response devices require you to push a button when you need help. But Hibou will be there to call for help when you can't call yourself.

"I feel so much safer home alone. Hibou is easy to use and I like that my family knows I am safe"

- Bev, HibouWellness Customer

HIBOU WELLNESS CHECK

Hibou offers a Wellness Check feature which can check up on you multiple times each day to make sure you're okay. You can set which times Hibou calls you as well as putting this feature on pause if you wish to not be contacted for a period of time.

CIRCLE MEMBERS

When you add a Circle Member to your account, you have the option to allow the user to have access to your GPS location and Hibou History. You also have the option of allowing this user to be notified if you enter an emergency status. All these permissions can be enabled or disabled as you wish.

HIBOU ALERT

HibouAlert is a **I NEED HELP** notification. When you push this button, a notification and GPS location will immediately be sent to your contact list. In an emergency, it makes sense to call 9-1-1, but other times, alerting your family and friends that you need help is the most appropriate solution.

How can this benefit you? Get the help you require from your family/friends at the push of a button! It is just that easy.

HIBOU ME

HibouMe provides the basics of Hibou to help keep you safe and keep your family informed. Whenever you go out for an activity, feel free to check-in so your friends or family is aware of the status.

ABOUT US

Keeping Canadians Safe Since 1999

Hibou has over 20 years of history implementing safety technology, keeping your loved ones safe. Hibou is a software solution to an everyday problem. By combining the decades of expertise of a lone worker monitoring solution with the care an insight of medical professionals, Hibou truly assists individuals in their quest for independence and to maintain a healthy active lifestyle while living in their homes.

 **2.3M Check-ins**

 **12.6M Events**
